PhD; **Katie C. Lewis, PhD**

## Riggs is Celebrating 100 Years in 2019!

Since its founding in 1919, Riggs has been a place where patients have worked with staff to find meaning and reclaim lives worth living. While much has changed, the centrality and importance of human relationships and of respecting the competent voice of patients have remained constant.

In 2019 we will reflect on the past, look toward the future, and celebrate this remarkable milestone. There will be a curated exhibit of Riggs history open to the public, a major two-day conference September 21-22, and other events throughout the year. Visit our website for the latest news and updates.
