

Updated 11/17/20

Dear members of the Austen Riggs Center Community:

Faced with a rise in COVID-19 cases at the local, state, and national levels, I am announcing increased precautions to ensure the safety of our patients and staff. To that end, we have distributed the following **UPDATES TO OUR COVID PRACTICES**. These steps represent our determination to keep every aspect of Riggs as open as possible, but as restrictive as necessary, to protect our health and well-being.

Be well,

Eric M. Plakun, MD
Medical Director/CEO
